**Feb 15 CHOICES FOR FUNDING THE GOVERNMENT:
THE BAD ONES, AND WHAT WE CAN DO INSTEAD**

Every year our elected leaders grumble about taxes, but nothing changes. Is there a better way to raise the money we need to run the state than the way we do it now? Is there a fairer way to assess property taxes?

Please join the AS220 Stinktank and a specially appointed panel of its *House of Unrepresentatives* in a discussion about these topics and finding ways to create a more equitable tax system.

Presented by Ellen Frank, senior economist with the Poverty Institute at the RIC School of Social Work and Harvey Waxman, retired general dentist and owner or RightTax.org, where he agitates to reform the way property taxes are levied and raised.

UPCOMING TOPICS:

- Mar 15 Taking Care of Everyone: How We Can Get Universal Health Care in RI
- Apr 26 Fake Economic Development (and the other kind, too)
- May 17 Burning it Up: The Future of Energy in RI
